The Artistry of Ty

Ty Smith Designer Portraits is located in beautiful downtown Guntersville, directly across the street from the courthouse. Ty and his wife Jill own and operate their personal touch studio, creating timeless, beautiful portraits of children, high school seniors and families. Ty and Jill are often away from their studio, creating heirloom portraits inside their client's home or favorite outdoor location.

Ty earned his formal education in photography at The University of North Alabama, where he received his Bachelor of Arts degree in Commercial Photography. His practical education came from working with some of the world's greatest teachers: the subjects he photographs and the old masters of photography he had the privilege to work with. The blending of natural light and Ty's ability to capture the true essence of his subject has earned him a charter membership in Kodak's Promise of Excellence.

We invite you to come experience the magic of Ty's portrait artistry. Beauty comes in many forms, but nothing is more touching than a human face, which expresses life, love, and emotion. A portrait which forever symbolizes a time in your life must be approached with equal desire and feeling! We create something beautiful everyday. Our goal at Ty Smith Designer Portraits is to capture a moment for a lifetime. "We love what we do and cherish our clients, who always manage to do something unexpected and perfect! We feel truly blessed."
